SUMMARY

Flutter Developer with hands-on experience shipping production React.js, Next.js, and Flutter applications my work varies from AI-powered document-intelligence SaaS to a festival registration platform with secure payments powered by razorpay. Cut plan to production time by 40% by embedding AI-assisted workflows (Claude CLI, Cursor) into daily development while sustaining 99%+ uptime and 90+ Lighthouse scores. Comfortable owning projects end-to-end across frontend, backend, and SEO on both web and mobile.

EXPERIENCE

Endorphins Entertainment

Frontend Developer Intern

Jan 2026 – Present

Noida, India

- Develop and maintain production web platforms with React.js and Next.js, sustaining 99%+ uptime and Lighthouse scores above 90; reduced load latency 30% via component modularization.
- Cut time-to-market by 40% by embedding Claude CLI and Cursor into daily development workflows.
- Beep Bop Boop (STEM Fest):** Built official website for India's premier kids' STEM festival (beepbopboopfest.com) with secure payment gateway and event registration modules.
- Preschool Platform:** Sole developer; built scheduling and content management features with an SEO strategy that grew organic traffic from zero.
- Endorphins Corporate:** Rebuilt company website using Next.js and Tailwind CSS — sub-second load times, modern design system.
- My Temple (Flutter):** Developed all frontend UI screens and components for a cross-platform community app, integrating real-time data feeds and localized push notifications.

PERSONAL PROJECTS

SnapBrief (AI Document Intelligence)

Next.js, Node.js, TypeScript, Gemini 2.5 API

- Built an AI-powered SaaS tool that processes large PDFs and Word files into context-aware, actionable summaries in under 5 seconds.
- Designed the backend architecture to securely handle document uploads and interface with the Gemini 2.5 API for rapid data extraction and processing.

The Armoury (Arsenal Fan Platform)

Flutter, Node.js, Firebase, REST APIs

- Engineered a high-fidelity mobile application architecture utilizing Flutter for the cross-platform UI and Node.js for custom backend services.
- Aggregated live match statistics and club news by integrating external REST APIs, leveraging Firebase to manage real-time data synchronization and secure user authentication.
- Portfolio:** Personal developer portfolio with project showcases, case studies, and live demo links — optimized for performance and SEO. *Next.js, TypeScript, Tailwind CSS*

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, Python, Java, HTML5, CSS3

Frontend & Mobile: React.js, Next.js, Flutter, React Native, Tailwind CSS, Material UI

Backend & Databases: Node.js, Firebase, Supabase, MySQL, REST API design, GraphQL

Testing & DevOps: Jest, Cypress, CI/CD (GitHub Actions), Docker (basic), Git/GitHub

AI-Assisted Development: Cursor, Claude CLI, LLM Prompt Engineering, Gemini API

Professional: MVP Rapid Prototyping, SEO Optimization, UI/UX Design, Agile Workflows, Client Communication

EDUCATION

Manipal University Jaipur | Bachelor of Technology in Information Technology

GPA: 7.5 | Jul 2026

Class 12th CBSE: 70% | Class 10th CBSE: 92%
